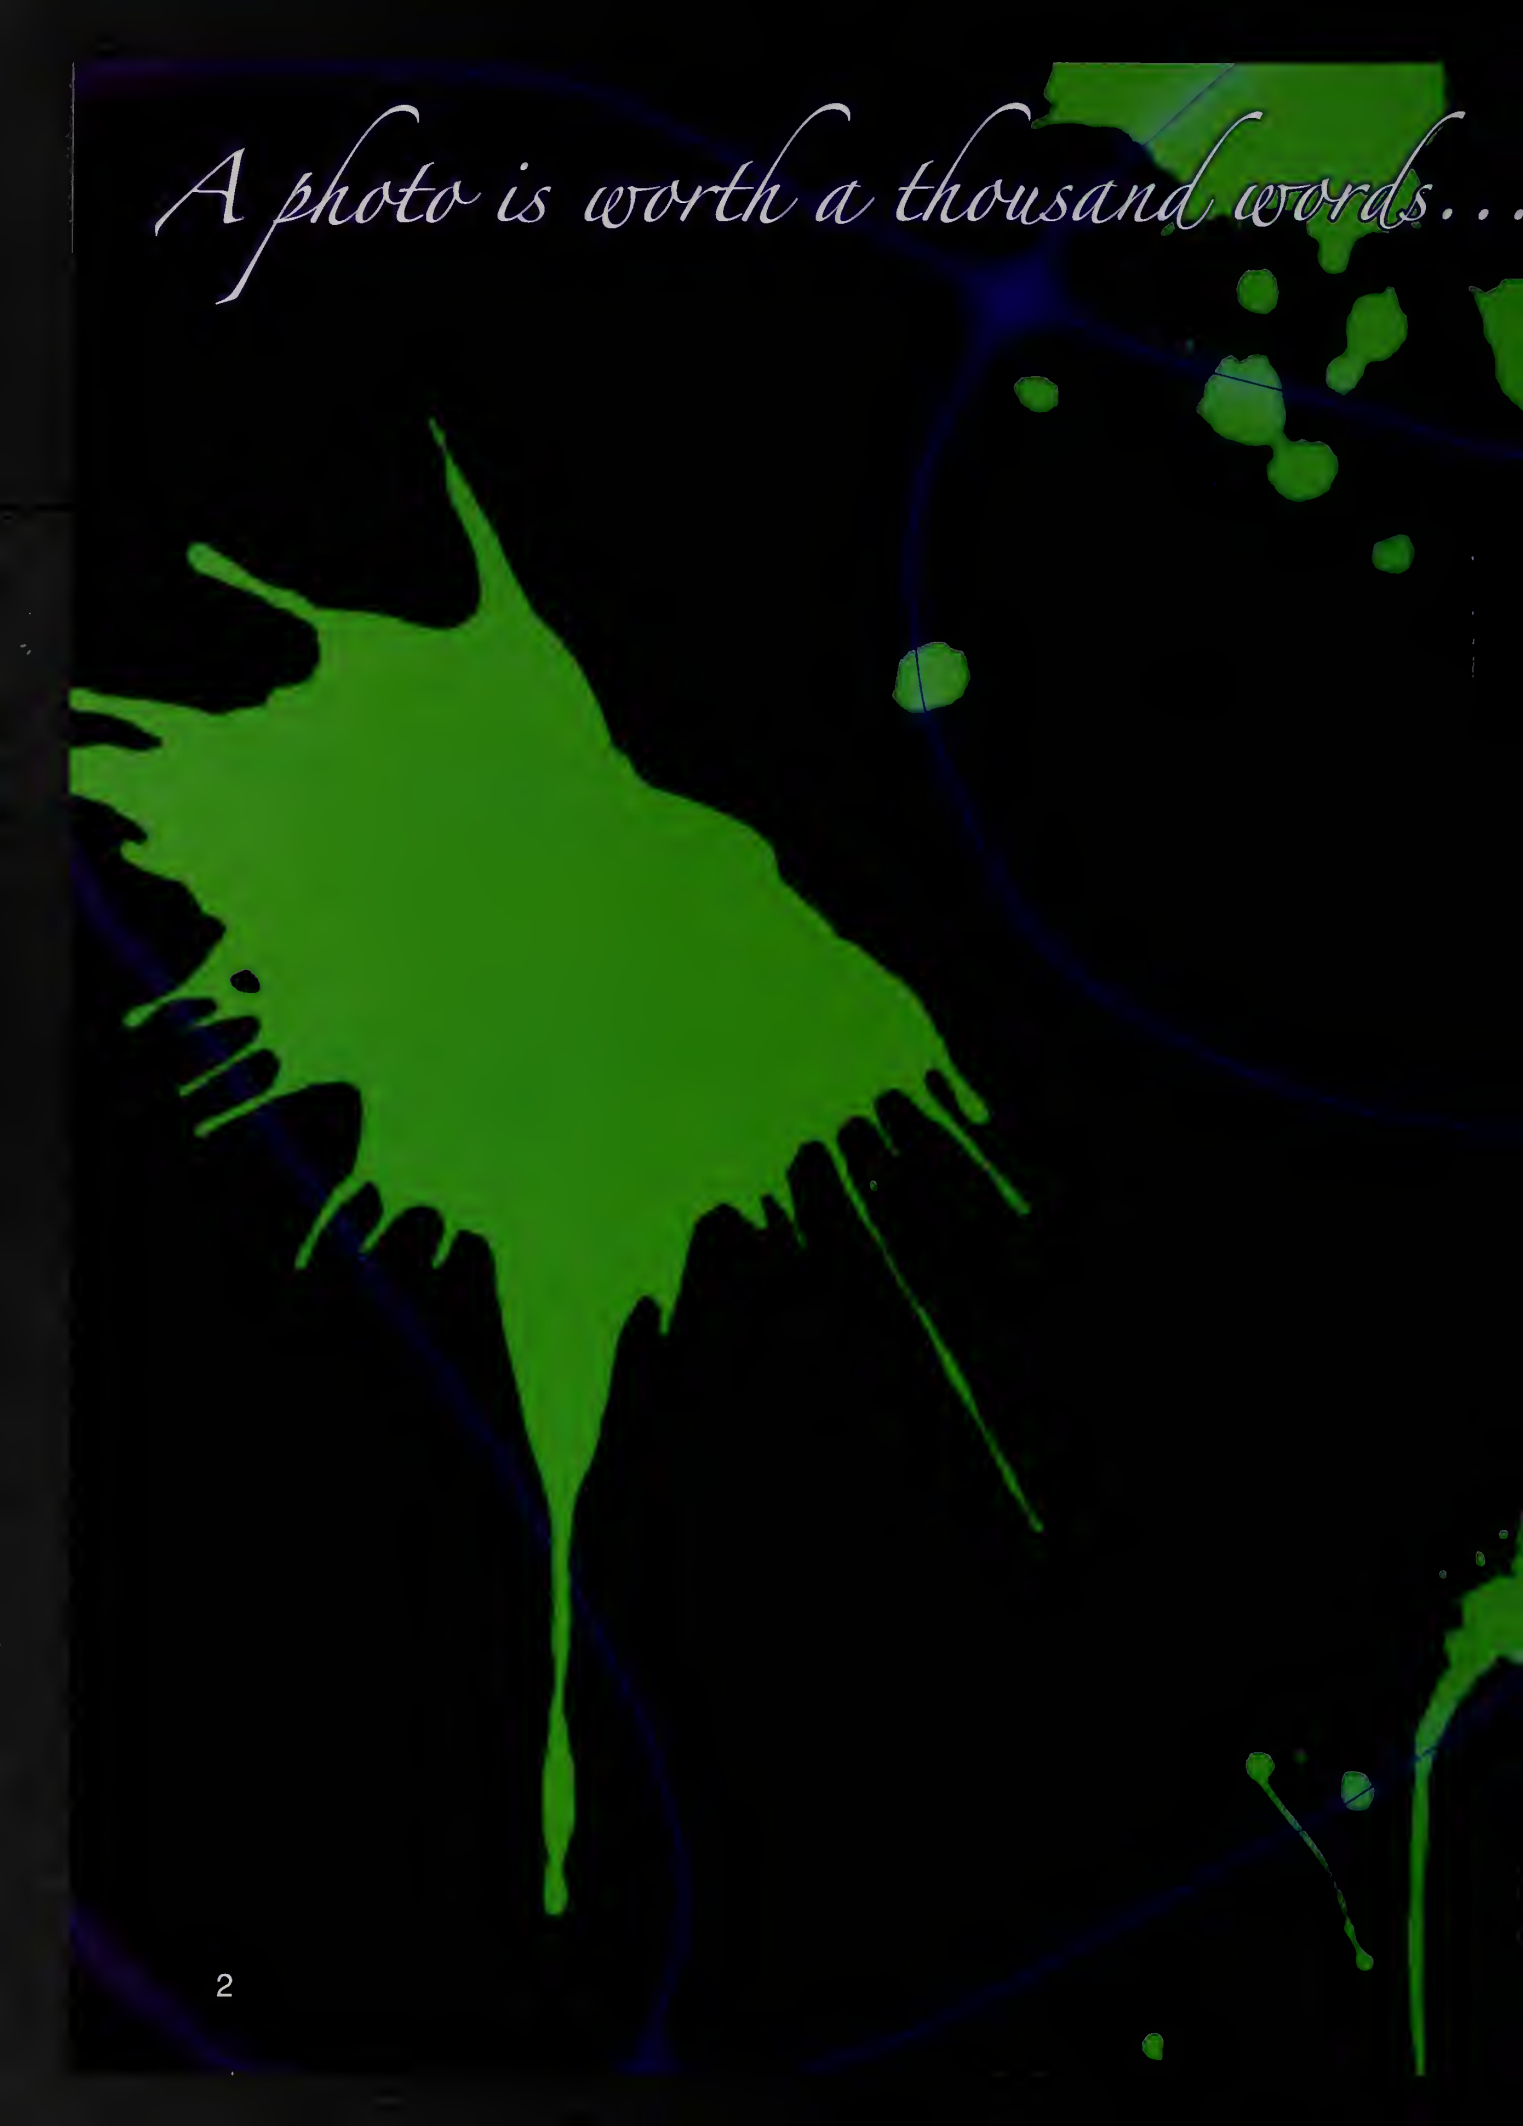
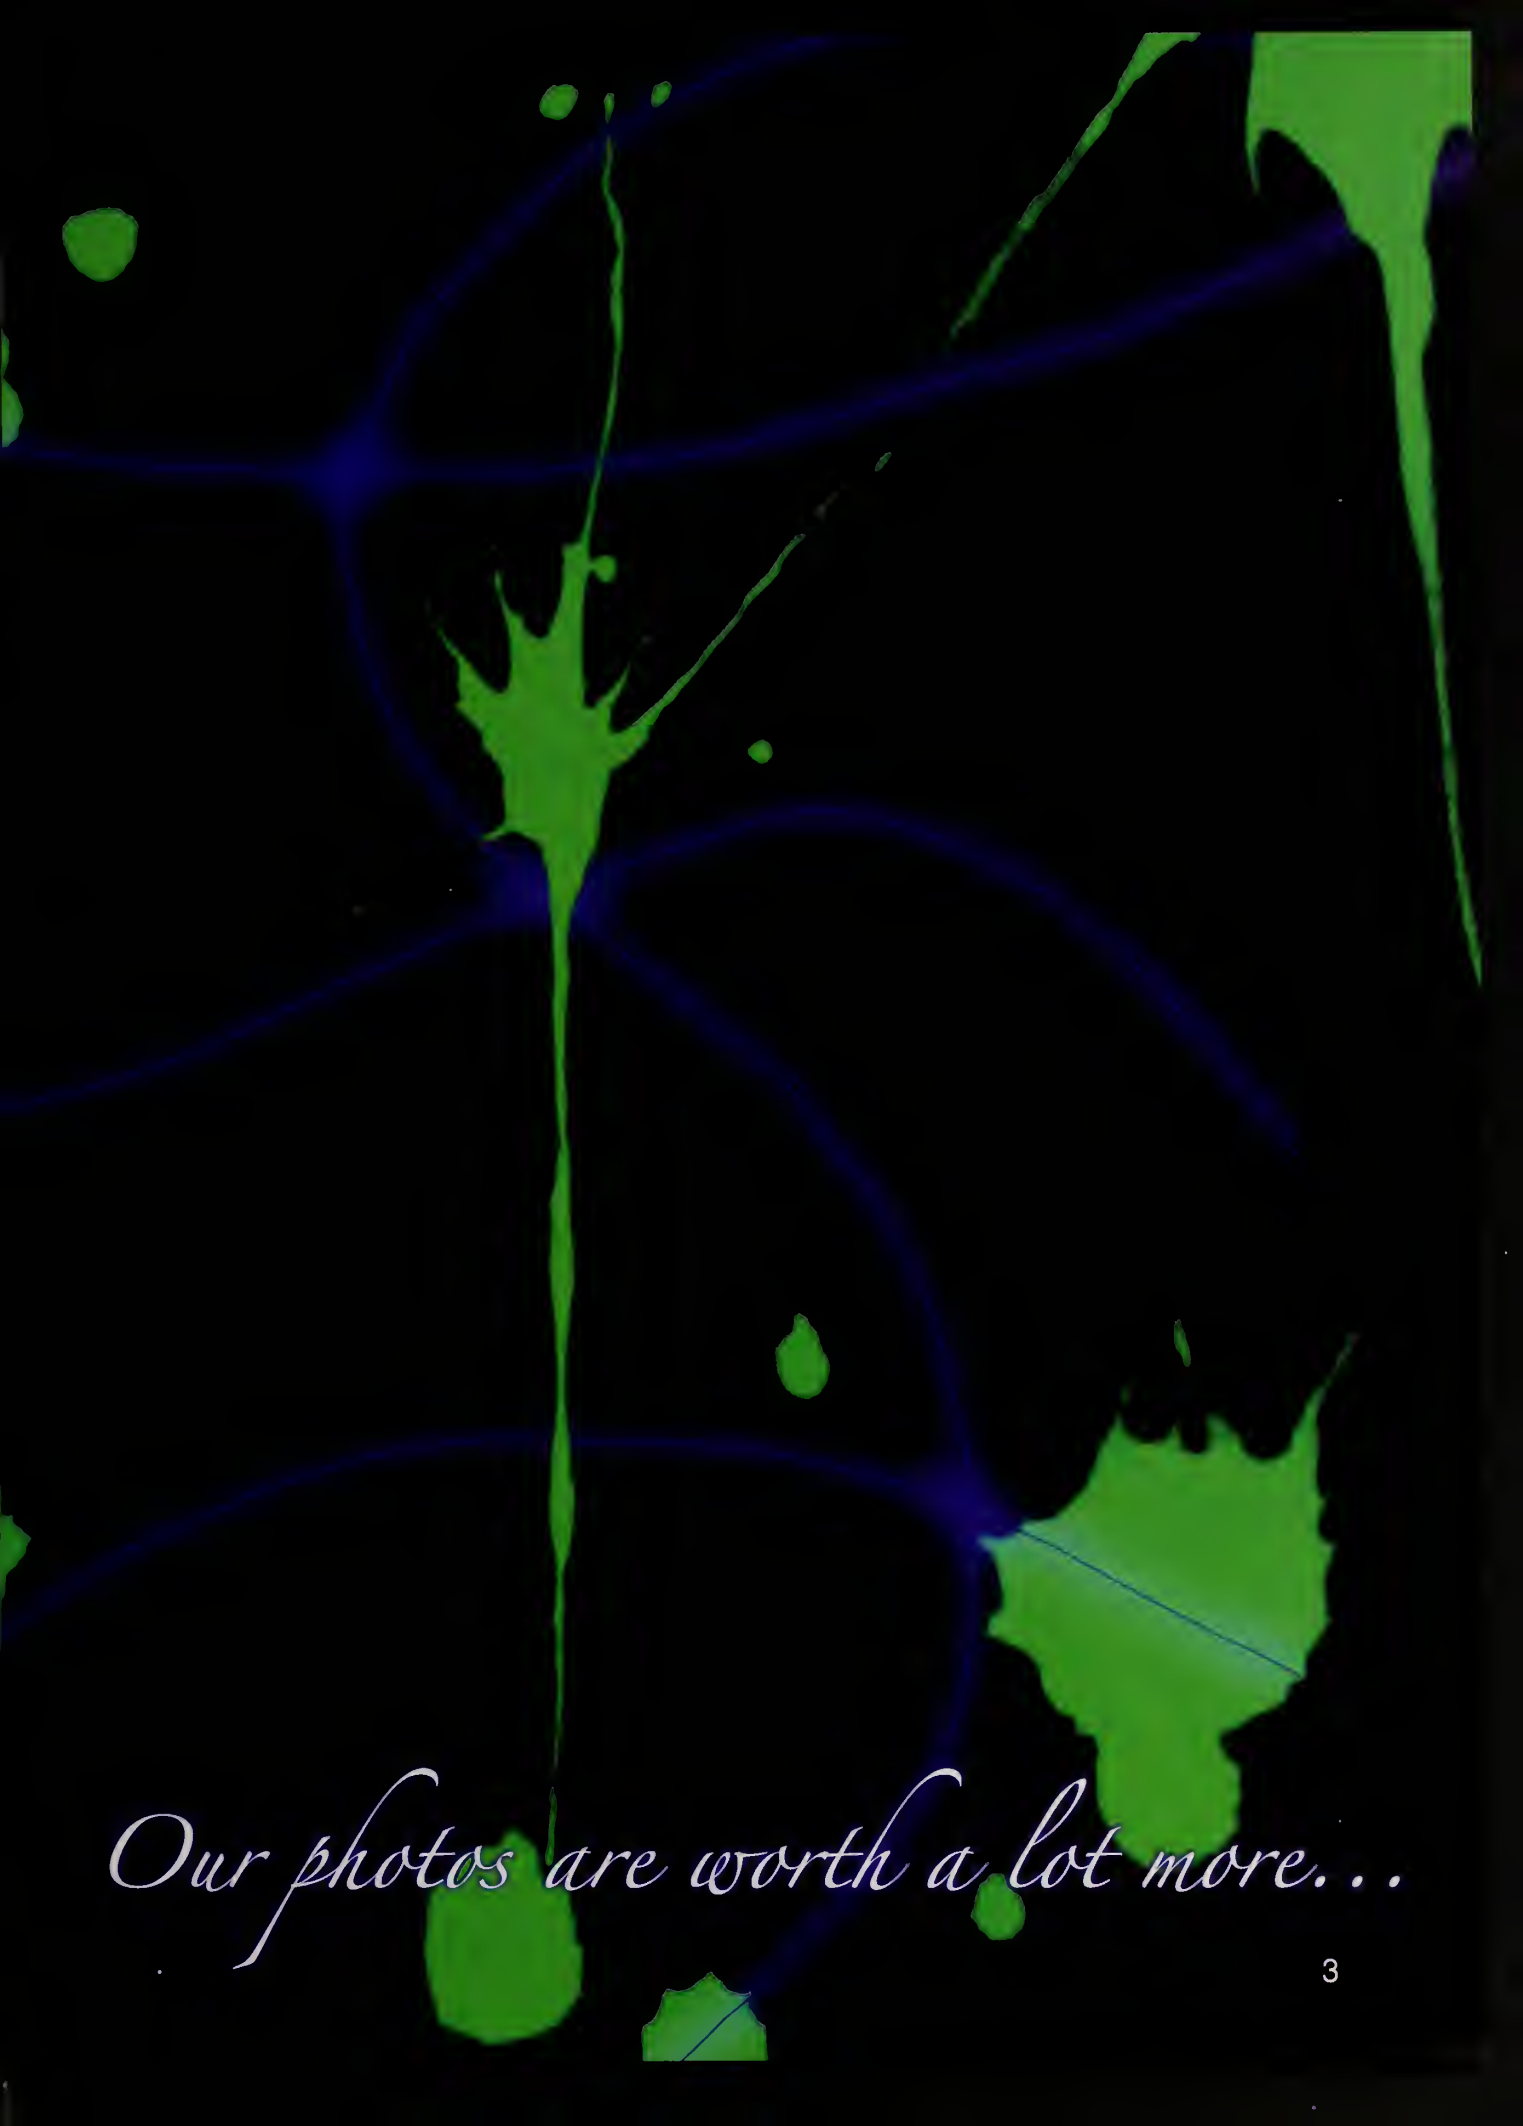
2009



A photo is worth a thousand words...



Our photos are worth a lot more...

Letter from the Editors...

For the Class of 2009

Congratulations! It has taken four long years, but you did it. The road ahead will be challenging but you are ready to take on the world. The best memories and the worst memories have impacted you as you struggled to complete schoolwork and manage to party it up every weekend. Tears of sorrow and tears of joy will follow as you make your way to what we'd like to call "The Real World". Remember this year as a new chapter in your life. Maybe you're not ready for a real new job. Maybe you still want to continue with school. Whatever it is you want to do, we hope you have success in achieving it.

Fatima Litim & Gina Nardone

The first edition of The Pulse, Suffolk's first photography magazine embodies a student's vision and perception of the ideals of our university.

"What better way to remember a college career than through the beauty and art of photography..."

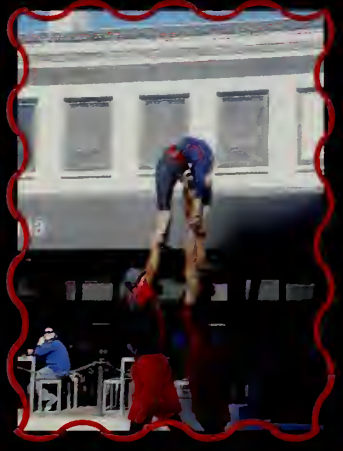
The Sardine Family

Fanuel Hall's Famous

STREET PERFORMERS



Twisting Origins

The Sardine Family comprised of brothers Alex and Orion and sister Mysje are originally from England but have extended their lives here in America. Their whole lives, they have performed mind boggling tricks and turns that would have any crowd say "WOW". Their lifestyle is a family tradition in which both their younger sister and father travel alongside them, working acts across the globe. Hoping to one day start their own circus, they admit that their motivation to continue comes from the happiness of the crowd. And Orion's motto? "To give anything less than your best is to sacrifice the gift."

The Art of Photography

For many years, Suffolk students have shown great talents in the arts that have contributed to the wide variety of talent in our media groups today. Sometimes, these talents go unnoticed and for that, we have dedicated this section of the magazine for photographic art.
